

# FAHD GAMAD

Full-Stack Web Developer | MERN Stack (MongoDB, Express.js, React.js, Node.js)

Cairo, Egypt | +20 104 432 2207 | fahdscode@gmail.com

[github.com/fahdscode](https://github.com/fahdscode) | [fahdscode.me](https://fahdscode.me) | [linkedin.com/in/fahd-gamad](https://linkedin.com/in/fahd-gamad)

## PROFESSIONAL SUMMARY

Full-Stack Web Developer (MERN) with 3+ years of experience shipping production web applications for e-commerce, fashion, real estate, and media clients across Egypt, Saudi Arabia, and the UAE. Specialized in React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB, with deep Shopify expertise (Liquid themes and headless Hydrogen/Remix) as an active Shopify Partner. Graduate of the Information Technology Institute (ITI) Full-Stack MERN Diploma (2026), seeking a full-stack role where I can own features end-to-end — from UI to API to deployment.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3

**Front-End:** React.js, Next.js (App Router, SSR/SSG), Redux, Zustand, React Hooks, Tailwind CSS, Responsive Web Design, Cross-Browser Compatibility, Web Performance Optimization, SEO

**Back-End:** Node.js, Express.js, RESTful API Design, GraphQL, WebSockets (Socket.io), Authentication & Authorization (JWT, Firebase Auth), MVC Architecture, Webhooks

**Databases:** MongoDB, Mongoose ODM, MongoDB Atlas, Firebase (Firestore, Authentication), Data Modeling

**E-commerce & CMS:** Shopify (Liquid themes, Hydrogen/Remix headless, Storefront & Admin GraphQL APIs), WordPress, Stripe, local payment gateways (Vodafone Cash, InstaPay)

**DevOps & Tools:** Git, GitHub, Docker, Docker Compose, Vercel, Postman, npm, CI/CD fundamentals, Linux/macOS CLI

**AI-Augmented Development:** Claude Code, Cursor, LLM API integration (Anthropic Claude, Google Gemini), Retrieval-Augmented Generation (RAG), n8n workflow automation, prompt engineering

**Methodologies:** Agile, Scrum, Jira, Data Structures & Algorithms (JavaScript & C++), Clean Code, Component-Driven Development

## PROFESSIONAL EXPERIENCE

### Full-Stack Web Developer — Freelance

2023 - Present

Cairo, Egypt (remote — clients across Egypt, Saudi Arabia & UAE)

- Designed, developed, and deployed 15+ responsive websites and full-stack web applications for clients across e-commerce, fashion, real estate, and media, owning the full software development lifecycle (SDLC) from requirements gathering to production deployment.
- Built a real-time restaurant management system on the MERN stack featuring a Socket.io-powered Kitchen Display System (KDS), live order tracking, and integration of local Egyptian payment methods (Vodafone Cash, InstaPay).
- Shipped conversion-focused React/Tailwind CSS landing pages and client websites (FastUp and others), making independent UI/UX decisions without designer handoffs.
- Automated product catalog migrations by transforming raw CSV data into Shopify-importable formats and connected store data to Looker Studio dashboards for sales reporting.
- Containerized MERN applications with Docker Compose for consistent development and production environments.

### Web Developer — Iris House Properties (Real Estate)

2025 - Present

UAE — Remote

- Develop and maintain the company's WordPress website (irishouse.ae) for the UAE real estate market, handling theme customization, content updates, and plugin management.
- Manage hosting, domains, and site performance on Hostinger, covering security updates and SEO fundamentals.

### Web Developer — Virtual Dimension

2024 - 2025

Remote — Saudi Arabia

- Developed and delivered e-commerce and website build projects for clients using modern web technologies (HTML5, CSS3, JavaScript).
- Built custom Shopify and WordPress solutions tailored to client requirements.
- Participated in the full project lifecycle: requirements gathering, development, QA, and deployment.

## PROJECTS

---

### BrewIQ (OrderX) — Multi-Tenant SaaS Café Management Platform

2026

*ITI Graduation Project*

- Architected a multi-tenant SaaS platform with Next.js 15, Node.js, Express.js, MongoDB Atlas, and Socket.io, comprising an Owner Dashboard, real-time Kitchen Display System, customer QR-code ordering web app, Super Admin panel, and marketing landing page.
- Integrated an AI assistant powered by Google Gemini with a Retrieval-Augmented Generation (RAG) pipeline for natural-language menu and analytics queries.
- Managed delivery using Scrum — sprint planning in Jira, prototyping in Figma, and an investor-style pitch deck.

### Oppozite Wears — Headless Shopify E-commerce Storefront

[oppositewears.com](https://oppositewears.com)

*Client project — fashion e-commerce*

- Built a headless Shopify storefront with Hydrogen (Remix) and server-side rendering (SSR) for fast, SEO-friendly shopping pages for a fashion brand — now live in production.
- Implemented GraphQL-driven navigation via the Shopify Admin API, minimum order quantity (MOQ) logic, custom Liquid theme work, and third-party Stripe payment configuration.

### Petrolife — Fuel Services Web Platform

[petrolife.sa](https://petrolife.sa)

*Client project — Saudi Arabia*

- Developed a responsive React web application for a Saudi fuel-services company, with secure user authentication powered by Firebase.
- Owned UI/UX decisions end-to-end and delivered the production front end from concept to live deployment.

## EDUCATION

---

### Full-Stack MERN Diploma — Information Technology Institute (ITI)

Jan 2026 - Jun 2026

*Egypt — intensive professional diploma covering JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB, data structures & algorithms, and Agile development*

### Bachelor of Business Administration — Horus University

2020 - 2025

*Egypt*

## CERTIFICATIONS & ADDITIONAL

---

- CS50x: Introduction to Computer Science — Harvard University (edX).
- The Complete JavaScript Course (Jonas Schmedtmann) — Udemy.
- Shopify Partner — active partner account; client store setup, theme development, and API integrations.
- Languages: Arabic (Native), English (Professional Working Proficiency).
